

## Flozer DevStack

Group of frameworks founded in Java/LAMP/Mono technologies which allow the companies to keep the development cycles of application development with low investment and quick return of investment. Our application stack is 100% compatible with all the standards which imply developments Java, .NET/Mono and LAMP.

### The problem

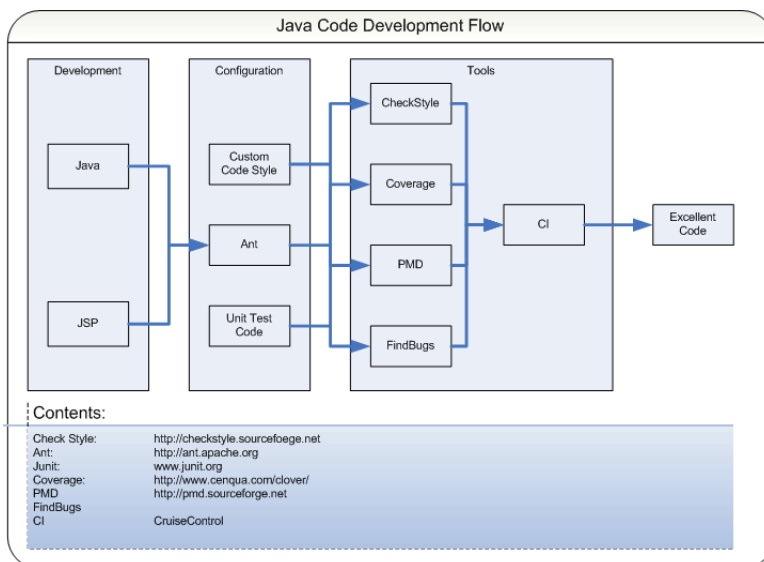

During years a lot of developers have been working with LAMP/Java/.NET/Mono but they had to invest a great amount of effort in the maintenance, deployment and integration of the applications. LAMP/Java/.NET/Mono is defining as the standard for the development of distributed applications in Windows environments. On-demand businesses of today require an infrastructure of development appropriate for the and at accessible costs.

### The solution

Flozer DevStack is a group of frameworks founded in LAMP/Java/.NET/Mono technology which allow the companies to keep the development cycles of bussiness applications with small investment and quick return of investment. Our stack is 100% compatible with all the standards which involve LAMP/Java/.NET/Mono developments.

### Highlights

- + Easy install, deployment, configuration and mantainance of your corporative applications.
- + Fast and easy Java/LAMP.NET/Mono infrastructure development
- + Assisted web configuration and control of administration for distributed developments
- + Complete framework compatible with Java/LAMP.NET/Mono standards

Application development software stack

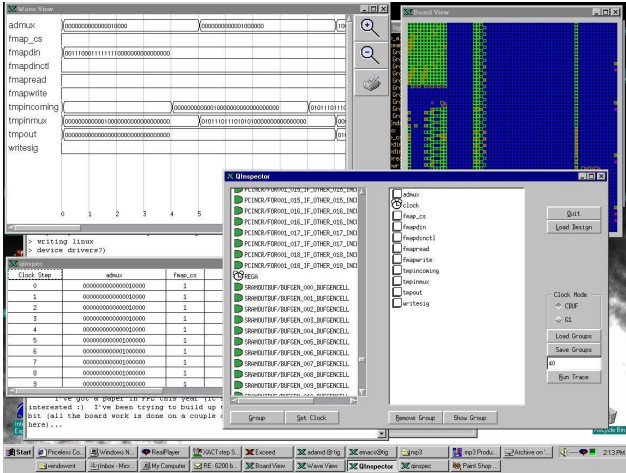

“Handle your business applications in a single platform, integrated and trustworthy.”

This solution have two flavors

**Flozer DevStack Appliance**  
Integrated Hardware & Software

**Flozer DevStack Stand-alone**  
Installed Software on generic hardware

Ask us about this flavors.

Main features

- Java/LAMP/.NET/Mono corporative stack
  - Server of bussiness applications
  - Web applications development
  - Web services development
  - Bussiness and components logic
  - E/R abstraction
  - Tools for handling updates and dependences
  - Install documentation
- .NET/Mono Components
  - Apache
  - Mod Mono
  - XSP Server
  - Mono Libs (BCL, gtk#, mozilla#, etc)
  - NHibernate
  - NAnt
  - Prj2Make
  - phpPgAdmin
  - MySQL
  - PostgreSQL
  - Flozer Configuration Manager
- Java Components
  - Apache
  - Jboss
  - Tomcat
  - Hibernate
  - Apache Axis
  - Apache Jetspeed
  - PHP
  - Log4j
  - Xalan-J
  - Xerces-J
  - Commons Logging
  - Spring Framework
  - Flozer Configuration Manager
- LAMP Components
  - Apache
  - PHP
  - phpMyAdmin
  - phpPgAdmin
  - MySQL
  - PostgreSQL
  - Flozer Configuration Manager
