

IT Management Solutions

For the management of IT infrastructures we have a wide range of solutions which will ease the control, management and monitorization of your information services in a centralized way.

Flozer DeskCenter

Central Desktop Management Center

“Control, mantain and handle all your farm of workstations from a single point.”

We offer connectivity to your network at a low cost using different communication protocols (X, RDP, VNC, RFB), in a similar way than solutions like Citrix, benefiting of the use of more network compression and with FLOSS solutions which will allow for costs cutting and to have technical solutions which provide an optimum performance.

Flozer ControlCenter

Central IT Management Center

“Handle your IT assets like a service, handle them with ITIL.”

Current corporations have application servers and complex corporative networks which are prone to incidents. Not handling this problems in the network can cause important losses in the bussiness of your corporation because of not having a solution which allows for proper monitorization of the envi

Flozer KeyCenter

Central Key Management Center

“Handle the credentials and identities of your users in an optimal and centralized way.”

An integral, economic and centralized solution for secure and quick access to all kinds of Web-based applications with a simple identity, providing unique access with a single credential, centralization of authentication services and unified identity
