

About Neurowork

TECHNOLOGY IN YOUR HANDS

Technology in your hands. Our solutions and services facilitate the adoption of latest technologies to companies of all sizes decreasing the technology break.

Our Values

- Prioritize our clients.
- Use and promote FLOSS philosophy.
- Give our clients flexibility.
- Be involved with the growth of the FLOSS community.
- Use the best personnel in order to attain the best results in the final client.
- Add value to your information systems.
- Total compromise with our clients.

Mission

Bring quality and satisfaction into our technological solutions and have it reflected on the service offered to our clients. It is our purpose to offer an integral attention, both from the country and the exterior, therefore, we have a growing and specialized human team.

Vision

To be leaders in technology, including research and development activities, using selected resources and having as a base the best products of the market, to provide with solutions of the highest quality.

History

- International business with headquarters in Spain, Argentina and Brasil initiated in 2002 with a Software Factory business model.
- In 2006, Neurowork associates with a spanish business to create the first business unit exclusively dedicated to FLOSS solutions and services, Neurowork Flozer. Through this unit, the intend is to provide coverage to different countries in the infrastructure and development of FLOSS area.
- The range of services of the Software Factory is widened to cover the needs of FLOSS development.
- To be able to cover the demand of professionals Neurowork NaturalJob is created as a business unit dedicated to the selection of human resources in the IT área. Due to the company growth needs in the FLOSS area, the specialized IT training business unit Neurowork Ilernia is created.
